- ⦿ **Don't try to structure a deal, architect a successful business instead**
- ⦿ **All deals must be structured fairly**

Convert from theory to application:

1. Take your generic lists and make them specific and personalized: List all viable potential strategic partners
2. Contact: Present your proposition, identify potential resistance
3. Traps to avoid: Failing to select right partner, failing to plan for change, failing to agree on goals, and failing to plan for growth

Closing the deal...

- ⦿ **Be Strategic**
- ⦿ **Understand the psychology from both sides. How should you look at people committed to you to do the deal?**
- ⦿ **Take away the risk for both sides:**
 - **Incremental gains**
 - **Margin net worth factor**
 - **Strategic advantage**
 - **Preemptive opportunities**
 - **Perception advantage**

To think about when crafting an agreement...

- ⦿ **Terms, duration, mutual performance expectations**
- ⦿ **Non-corporate/corporate**
- ⦿ **Residual stream after deal ends**
- ⦿ **Termination - value; does it dissipate or remain**
- ⦿ **Buy / Sell**
- ⦿ **Who owns what - Assets, Accounts, Prospects, Brand, IP ?**

Making the deal work

- Be inventive
- Keep your eye on the prize
- Tie up and manage other JV/SA activities
- Alliance must be embraced by all

- 2-4 wisely chosen alliances can yield 50-100% increase!
